

OUR LADY OF GOOD COUNSEL S.S.S GAYAZA

SENIOR TWO GEOGRAPHY HOLIDAY WORK.

The world's temperatures are increasing at a very fast rate. This change in climate is affecting every living thing on planet earth but some people seem not to care about what is happening. Environmentalist and climatologists have embarked on a great research to find out what is causing this great change and if possible find ways of reversing this trend so that the future generation can enjoy their stay on mother earth. You have been requested to join this great team to carry out this research.

Task : Using you village and knowledge acquired from the environment ,write a report of your findings which will be read on the world environment awareness day.
